

Format for proposal for changing of FOCUS_DEGKIN

- | | |
|--|--|
| 1. Software package: | FOCUS_DEGKIN |
| 2. Current version: | v1 |
| 3. New version: | v2 |
| 4. Initiator for change:
E-mail:
Telephone: | Sabine Beulke
s.beulke@csl.gov.uk
+ 44 1904 462099 |
| 5. Is initiator part of team that developed software package ? | yes |
| 6. When did initiator send proposal to chairman ? | 20May 2007 |
| 7. When did chairman forward proposal to workgroup ? | 21 May 2007 |
| 8. Deadline for reactions by workgroup members:
(within two weeks after receipt; no reaction will be interpreted as approval) | 4 June 2007 |

9. Proposed change: There was an error in the residual plot in the worksheet 'chi2 all models 2 reps'. The residuals from the worksheet 'SFO 2 reps' are shown instead of those in the worksheet 'chi2 all models 2 reps'. This error was corrected and all other graphs checked.

10. The standard test results are provided in a separate file together with this proposal. These test results are results of analyses as specified in the report User guidance_FOCUS_DEGKIN v2.pdf.

Workgroup members are responsible for comparing these test results with those of the previous version which they can find at the FOCUS website. It is the duty of the initiator to give below guidance on magnitude and interpretation of the differences in test results.

Guidance from initiator: The proposed change only affects the graphical output in one of the worksheets ('chi2 all models 2 reps'). All calculations in v2 are identical to those in the previous version v1. There is no difference in the test results for v2 and v1.
